

### How to know if your product needs a PA (Private Attestation)

#### Process of elimination:

- A) Check your composite does not contain Meat (as High Risk composites require a Health Cert)**
- B) Is your composite Shelf stable and contains POAO (milk or egg )? If yes then it requires a PA.** However **check the HS code** against the **exemption list**, see below,
- 1) If it is on the exemption list then the PA is not subject to controls at the BCP.
  - 2) If the HS code is **not on the exemption list** then it requires a **PA and Ched** to be **submitted to DAFM**. The PA does not have to travel with the consignment. **The PDF of the PA uploaded** to DAFM's portal is sufficient.

Table 1: Composite products exempted from controls at the BCP<sup>1</sup>

CN codes	Explanations
(1)	(2)
1704, ex 1806 20, ex 1806 31 00, ex 1806 32, ex 1806 90 11, ex 1806 90 19, ex 1806 90 31, ex 1806 90 39, ex 1806 90 50, ex 1806 90 90	Confectionery (including sweets), chocolate and other food preparations containing cocoa that meet the requirements of Article 3(1)
ex 1902 19, ex 1902 30, ex 1902 40	Pasta, noodles and couscous that meet the requirements of Article 3(1)
ex 1905 10, ex 1905 20, ex 1905 31, ex 1905 32, ex 1905 40, ex 1905 90	Bread, cakes, biscuits, waffles and wafers, rusks, toasted bread and similar toasted products that meet the requirements of Article 3(1)

ex 2208 70	Liqueurs and cordials that meet the requirements of Article 3(1)

<sup>1</sup> A composite product must be shelf-stable and not contain meat to qualify for an exemption from official controls at the BCP. These exempted products still require a private attestation which must accompany product to the point of placing on the market/warehouse/point of sale. Products containing dairy/egg products must meet the requirements of Article 162 of regulation (EU) 2020/692 [See Appendix]
